AMCEG6158K

# AMC Grand 2024

12 seater  
Fully electric

Integrated Navigation  
and entertainment  
system

Street legal

## AMCEG6158K

AMCEG6158K is AMC's newest electric shuttle bus generation. It's integrated with the advantage of AMC's three old electric shuttle bus generations----nice shape, good performance. Moreover, the biggest advantage of this new shuttle bus is that the "container loading quantity" is increased which can decrease the freight cost dramatically!

Because of its feature of no pollution and low noise, this kind of electric shuttle bus is a perfect transporting vehicle in closed areas such as a park, resort, garden, museum, village, hotel, airport, community, big factory, pedestrian street, etc.. With ten years' experience, AMC is providing you the most suitable, reliable, comfortable electric shuttle bus. Choosing AMC's electric vehicle is your best choice!!

Battery	Deep cycle, lead acid battery, Trojan brand
Motor Power	5KW DC
Controller	Curtis brand
Passenger capacity	12
Range (loaded) based on flat road at a speed of 12 mph (mi)	> 50 and 62 when it's without gear box
Max. speed (mph)	25
Minimum turning radius (ft)	17
Max. climbing ability	20%
Max. lifting weight	2469 lbs
Overall dimensions (ft)	16.4 x 4.8 x 6.7
Ground Clearance (in)	5.3
<b>Body and Frame</b>	
Frame	Welded steel framework with sand blasting+paint treatment
Body	FRP
