PRINCETON

AMCEG6022H is a newly developed electric truck (developed in 2011). The full range of new electric trucks include three models---AMCEG6022H, AMCEG6032H and AMCEG6042H. These three models share the same shape design with different loading capacities from 1000lbs, 3300lbs and 4400lbs. To get different loading capacities, they have different size of cargo beds, different leaf spring and different electrical system configuration. At this moment, these models can only be used in a closed areas such as stations, parks, gardens, communities, big factories, etc, for off-road use purposes.
